

SHOOT!

by
Ed Lecca L.

Each and every photograph and image was shot or created/designed by Edward A. Lecca L.
No Photoshop nor any other program alike was used, only a standard visual editor (brightness/contrast/highlight/shadow, etc.) on the smartphone or laptop was used to enhance the photographs, in order to approach as much as possible what the camera captured. Some visual effects were used on some of the images/designs in this book.
